Factors in determining capacity or competence
52 (1) Every adult person in a hospital or a psychiatric facility is presumed to have capacity to make all treatment decisions with respect to the person’s health care and to be competent to administer the person’s estate.

(2) A person in a hospital or a psychiatric facility may be found, after examination by a psychiatrist, not to be capable of consenting to treatment or competent to administer the person’s estate.

(2A) In determining whether or not a person in a hospital or a psychiatric facility is capable of consenting to treatment, the examining psychiatrist shall consider whether the person understands and appreciates

(a) the condition for which the specific treatment is proposed;
(b) the nature and purpose of the specific treatment;
(c) the risks and benefits involved in undergoing the specific treatment; and
(d) the risks and benefits involved in not undergoing the specific treatment.

(2B) In determining a patient’s capacity to make a treatment decision, the psychiatrist shall also consider whether the patient’s mental disorder affects the patient’s ability to appreciate the consequences of making the treatment decision.

(3) In determining whether or not a person is competent to administer his estate, the psychiatrist examining the person shall consider
(a) the nature and degree of the person’s condition;
(b) the complexity of the estate;
(c) the effect of the condition of the person upon his conduct in administering his estate; and
(d) any other circumstances the psychiatrist considers relevant to the estate and the person and his condition. R.S., c. 208, s. 52; 2005, c. 42, s. 86; 2008, c. 8, s. 34.

Declaration of capacity or competency

53 (1) A psychiatrist, after having examined a person in a hospital or a psychiatric facility to determine his capacity to consent to treatment, shall complete a declaration of capacity in respect of that person.

(2) The declaration of capacity shall state whether or not in the opinion of the examining psychiatrist the person examined is capable of consenting to treatment or not.

(3) When a psychiatrist has completed the examination of a person in a hospital or in a psychiatric facility to determine that person’s competency to administer his estate he shall complete a declaration of competency in respect of that person.

(4) A declaration of competency shall be signed by the examining psychiatrist and shall state whether or not in his opinion the person examined is competent to administer his estate.

(5) A declaration of capacity and a declaration of competency shall be in such form and contain such information as may be determined by the Governor in Council by regulation. R.S., c. 208, s. 53; 2005, c. 42, s. 86.

Consent to hospital treatment

54 (1) No person admitted to a hospital or a psychiatric facility shall receive treatment unless he consents to such treatment.
(2) Where a patient in a hospital or a psychiatric facility is found by declaration of capacity to be incapable of consenting to treatment, consent may be given or refused on behalf of the patient by a substitute decision-maker who has capacity and is willing to make the decision to give or refuse the consent from the following in descending order:

(a) a person who has been authorized to give consent under the Medical Consent Act or a delegate authorized under the Personal Directives Act;

(h) the Public Trustee.

(3) Where a person in a category in subsection (2) fulfils the criteria for a substitute decision-maker as outlined in subsection (5) but refuses to consent to treatment on the patient’s behalf, the consent of a person in a subsequent category is not valid.

(4) Where two or more persons who are not described in the same clause of subsection (2) claim the authority to give or refuse consent under that subsection, the one under the clause occurring first in that subsection prevails.

(5) A person referred to in clauses (c) to (g) of subsection (2) shall not exercise the authority given by that subsection unless the person

(a) excepting a spouse, has been in personal contact with the patient over the preceding twelve-month period or has been granted a court order to shorten or waive the twelve-month period;

(b) is willing to assume the responsibility for consenting or refusing consent;

(c) knows of no person of a higher category who is able and willing to make the decision; and
(d) makes a statement in writing certifying the person’s relationship to the patient and the facts and beliefs set out in clauses (a) to (c).

(6) The attending physician is responsible for obtaining consent from the appropriate person referred to in subsection (2). R.S., c. 208, s. 54; 2000, c. 29, s. 16; 2001, c. 5, s. 4; 2005, c. 42, s. 86; 2008, c. 8, s. 35.

Duty of substitute decision-maker

54A The substitute decision-maker shall make the decision in relation to specified medical treatment

(a) in accordance with the patient’s prior capable informed expressed wishes unless

(i) technological changes or medical advances make the prior expressed wishes inappropriate in a way that is contrary to the intentions of the patient, or

(ii) circumstances exist that would have caused the patient to set out different instructions had the circumstances been known based on what the substitute decision-maker knows of the values and beliefs of the patient and from any other written or oral instructions;

(b) in the absence of awareness of a prior capable informed expressed wish, in accordance with what the substitute decision-maker believes the wishes of the patient would be based on what the substitute decision-maker knows of the values and beliefs of the patient and from any other written or oral instructions; and

(c) if the substitute decision-maker does not know the wishes, values and beliefs of the patient, in accordance with what the substitute decision-maker believes to be in the best interest of the patient. 2005, c. 42, s. 86; 2008, c. 8, s. 36.

Determination of best interest of patient

54B In order to determine the best interest of the patient for the purpose of clause (b) of Section 54A, regard shall be had to

(a) whether the condition of the patient will be or is likely to be improved by the specified medical treatment;

(b) whether the condition of the patient will improve or is likely to improve without the specified medical treatment;

(c) whether the anticipated benefit to the patient from the specified medical treatment outweighs the risk of harm to the patient; and

(d) whether the specified medical treatment is the least restrictive and least intrusive treatment that meets the requirements of clauses (a), (b) and (c). 2005, c. 42, s. 86.
Reliance on statement in writing

54C Whoever seeks a person’s consent on a patient’s behalf is entitled to rely on that person’s statement in writing as to the person’s relationship with the patient and as to the facts and beliefs mentioned in clauses (a) to (c) of subsection (5) of Section 54, unless it is not reasonable to believe the statement. 2005, c. 42, s. 86.

Review by court

54D (1) Where a substitute decision-maker approves or refuses treatment on behalf of a patient pursuant to subsection (2) of Section 54, the Supreme Court of Nova Scotia (Family Division) or the Family Court where there is no Supreme Court (Family Division) may review the provision or refusal of consent when requested to do so by the psychiatrist or the patient to determine whether the substitute decision-maker has rendered a capable informed consent.

(2) Where the court finds that a substitute decision-maker has not rendered a capable informed consent, the next suitable decision-maker in the hierarchy in subsection (2) of Section 54 becomes the substitute decision-maker. 2005, c. 42, s. 86.

Examination for competency

55 (1) The examination of a person in a hospital or a patient in a psychiatric facility by a psychiatrist to determine whether that person is competent to administer that person’s estate may be performed at any time as the need arises.

Presumption of competency and capacity

56 If an examination is not performed within the periods set out in Section 55, the person shall be presumed to be competent or capable of consenting until a psychiatrist determines that the person is not competent or capable of consenting. R.S., c. 208, s. 56.

Revocation of declaration

57 (1) If a person in a hospital or a psychiatric facility is examined by a psychiatrist and found incapable of consenting to medical treatment or incompetent to administer his estate and subsequent thereto has been re-examined and found to be capable of consenting to treatment or competent to administer his estate then the examining psychiatrist shall execute a revocation of the declaration of capacity or a revocation of the declaration of competency whichever is appropriate under the circumstances.

(2) The revocation of declaration of capacity shall be signed by the psychiatrist examining the person and shall state that the person described therein is capable of consenting to treatment.
(3) The revocation of declaration of competency shall be signed by the psychiatrist examining the person and shall state that the person described therein is competent to administer his estate.

(4) A revocation of declaration of capacity and a revocation of declaration of competency shall be in such form and contain such information as may be determined by the Governor in Council by regulation. R.S., c. 208, s. 57; 2005, c. 42, s. 86.

(5) The judge of the Supreme Court may either confirm the declaration of capacity or the declaration of competency or determine that the same should be revoked.

(6) If the judge of the Supreme Court determines that the declaration of capacity or the declaration of competency should be revoked, then he shall issue an order revoking the declaration of capacity or the declaration of competency whichever is appropriate under the circumstances. R.S., c. 208, s. 58; 1992, c. 16, s. 5; 2000, c. 29, s. 16; 2005, c. 42, s. 86.

(2) Subject to Section 14A of the Public Trustee Act, where there is no guardian to act on behalf of the person in a hospital or a psychiatric facility
