

"Bill 90"

To Government:

I would like to voice my concerns regarding Bill 90. The government is punishing the wrong people. This bill is not going to achieve what you want. It is only going to cost us in time and money. We already take information from our customers and have done so for years.

We do not want stolen merchandise on our property. We work with and help the R.C.M.P. when we can. It is not fair to put the blame for this problem on our business. We are not the criminals.

A lot of us are small business, we cannot afford your fines. It is hard to get employees to get total information all the time. You will be forcing some of us to close and putting people out of work.

I would like to thank our association for working on our behalf. It is hard for a lot of us to ~~to~~ come to Halifax on short notice.

Thank you for your time and consideration.
