Subject: Snow Sport Helmet Act, Bill 131

Re: Snow Sport Helmet Act, Bill 131

Statistics indicate that skiing and snowboarding injuries occur on NS ski hills and the severity of head injury while skiing and snowboarding can be decreased by as much as 88% with the use of helmets. We also know the cost of one brain injury patient is estimated to be \$400,000 for the first year of recovery.

I am in full support of Bill 131 and congratulate the Nova Scotia Government on bringing this to the forefront so that the rest of Canada can follow.

Regards,

Alberte LeBlanc CMP
