Subject: NSAC-Dalhousie Merger

I am an employee of the NSAC and am a civil servant. Bill 84 does not protect us, the employee as it was originally conveyed to us. I am concerned that this legislation is moving so quickly that we, the employees are being left behind and I feel as if the Government does not care for it's employees and is only interested in eliminating us from the overall civil servant number. I would request that Bill 84 be slowed so that us, the employees, Government and NSGEU be able to review and discuss this bill.
