

**Presentation to
Law Amendments Committee
Bill No. 94**

Good Morning Mr. Chairman, Members of the Law Amendments Committee:

My name is Russell Boucher. I am a life-long resident of Havre Boucher, Antigonish County, and I have also just been given the privilege to serve as the new Warden for Antigonish County. With me today is Pierre Boucher, newly elected Councillor for the Tracadie/Monastery area, Alan Bond, Municipal Clerk/Treasurer and Mr. Len Robertson, a strong community volunteer.

First of all let me congratulate the good people of Shelburne and their MLA, Fisheries Minister, the Honourable Sterling Belliveau; who through their efforts convinced this Committee to be here today to hear the electors concerns over proposed changes to the Provincial Electoral Boundaries. The electors of Shelburne, much like many of those in Antigonish County, were not given the opportunity to be heard prior to the final report of the Electoral Boundaries Commission being released. Unfortunately our request to hold a similar meeting in Havre Boucher was turned down by the Government. We therefore felt it necessary to travel here today and, on behalf of our Municipal Council and the electors of Antigonish County, we wish to convey our concerns over Bill 94 which provides for merging the area of Antigonish County, east of the Tracadie River, with Guysborough-Sheet Harbour to form East Nova.

We acknowledge the Commission had a daunting task before them. However, this process, in our opinion, has been flawed from the start. The Interim Report of the Commission, dated May 31, 2012, would have seen the Antigonish riding, which follows the same property lines as Antigonish County, divided in half to bolster a declining population in Guysborough on one side and East Pictou on the other. The Interim Report, as we know, was not accepted by the Government and a Revised Interim Report, dated July 20, 2012, was released which left Antigonish County as is. Electors of Antigonish County were very pleased to learn that their riding would stay intact. The reason given by the Commission to keep Antigonish as a riding was that the Interim Report would have divided three ridings, including Antigonish. As one of the Commission members stated "in a sense, we only ended up impacting two ridings (Guysborough and Pictou) it does kind of represent a less dramatic change that what was initially proposed".

During the second round of public hearings, residents of Antigonish County were, for the most part, silent on the findings of the Revised Interim Report as no change was being proposed. However, when the final report was released on September 25, 2012 the Commission recommended changes to the Antigonish riding that would have the area of Antigonish County, east of the Tracadie River, merging with Guysborough-Sheet Harbour to form East Nova. Why was this done? Surely, not to allow the three Pictou ridings to remain intact to the detriment of our community. Make no mistake about it, Antigonish is one community and the electors of Antigonish County Mr. Chairman are being penalized for doing a good job. We are one of very few Municipalities in rural Nova Scotia that has managed to maintain its population and instead of encouraging this; we are being penalized by the government of the day – the first NDP government in Antigonish County since 1867.

Mr. Chairman, this is not the first time residents of the Eastern part of Antigonish County have faced adversity when it comes to boundary changes. In 1973 the Graham Royal Commission proposed changes to municipal boundaries that would have seen the Eastern portion of Antigonish County become part of a larger Guysborough/Cape Breton Municipal Boundary Revision. A map is attached as appendix A to our submission which, if you look closely, the Eastern portion of Antigonish County is being severed, much in the same fashion as Bill 94 will do. In 1974, however, residents were given an opportunity to be heard and not only residents of the Eastern part of Antigonish County spoke out against the proposed change, but all of the residents of Antigonish County rose up in support of their friends, relatives and neighbours to the East and Antigonish County was left as one community. Surely history must have taught us something. Mr. Chairman, attached as Appendix B is a petition signed by many residents of Antigonish County who oppose this legislation. We want to make it very clear that many of the signatures on this petition are from all parts of the County, not just the area being affected by Bill 94. In a very short time period hundreds of people have come out in support of keeping Antigonish Town and County as a separate riding. While no opportunity was provided the electors of Antigonish County to express their concern on the recommendations in the final report, a day will come when electors will have their voices heard.

In closing, Mr. Chairman, let me say first of all that our friends and neighbours in Guysborough are great people and we work with them on various projects and initiatives that impact both of our communities but we are just that....two communities

and Antigonish Municipal Council and its electors feel very strongly about that. This became quite evident when Regional Development Authorities were formed in this Province. The Government proposed one RDA for Antigonish/Guysborough. However, in discussions with our colleagues in Guysborough it was agreed that, given the economic development priorities of each area, that we ask the Government to amend the legislation and allow for two separate Regional Development Authorities. This was done and since that time the residents of Antigonish County have worked hard to grow our community and increase our population base.

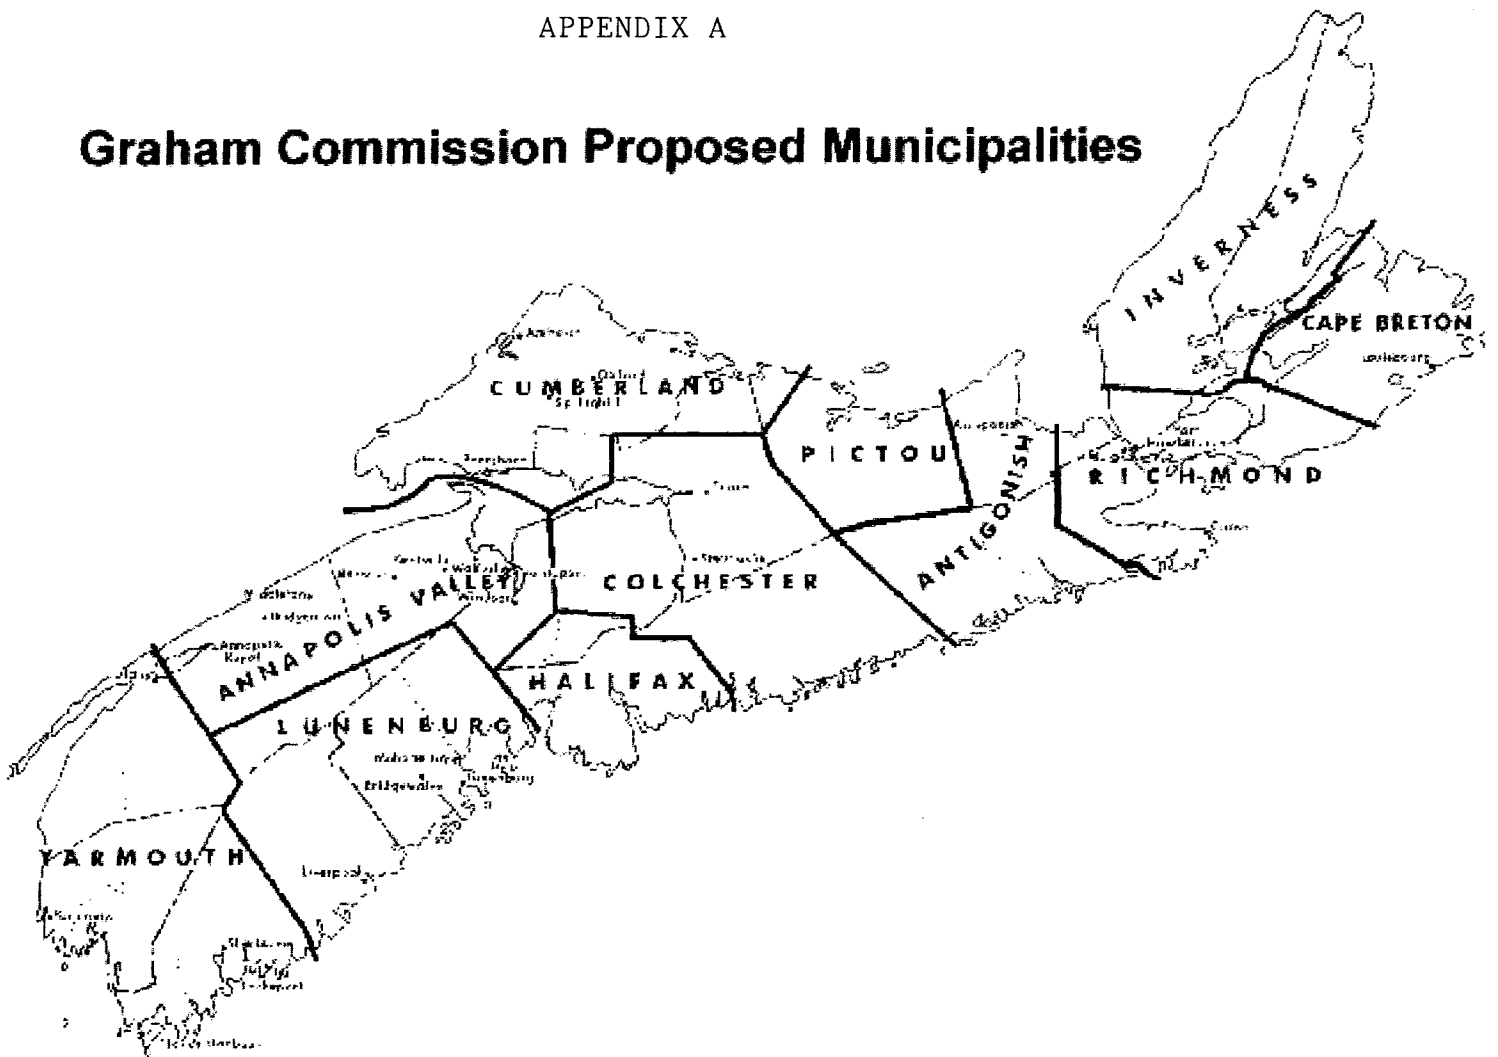

Finally, Bill 94 will split the Tracadie and Havre Boucher communities down the middle. A community that shares a long cultural history. It shares the same school. Its seniors have an active organization, and parishioners attend Church services in each community, participate in Christmas Bazaars and other Church functions. On November 11th past, Havre Boucher also hosted its annual Tracadie/Havre Boucher Remembrance Day ceremonies. Bill 94 will also divide a Municipal district. Two MLA's serving one district may not seem that much of a concern for someone sitting in Halifax but for the people in Tracadie and the Havre Boucher area I can assure you Mr. Chairman, it is a major concern.

The Terms of Reference, Sec. 2(c) ii clearly states that "Deviations from parity of voting power may be justified in consideration of community history and interests". This was a mandatory requirement of the Commission and in the case of Tracadie and Havre Boucher was not complied with. The Final Report of the Commission not only divides the Antigonish riding by a boundary line but it dampens our spirits as a community.

Mr. Chairman, the Antigonish riding as we know it today was created in 1867. A riding, to this day, that meets all of the criteria established in the Terms of Reference for the Provincial Boundaries Commission.

Thank you again to the good folks here in Shelburne for allowing us the opportunity to use your community centre to present our case before the Law Amendments Committee. We wish you well and we thank the Committee for their time today.

Graham Commission Proposed Municipalities

We, the undersigned residents of Antigonish County, protest the final report of the Nova Scotia Electoral Boundaries Commission which recommends that all electors from the Tracadie River to the Strait of Canso be removed from the Antigonish riding and joined with Guysborough under the new riding to be named East Nova. We are not in favor of this decision.

No. _____
Date _____

We, the undersigned residents of Antigonish County, protest the final report of the Nova Scotia Electoral Boundaries Commission which recommends that all electors from the Tracadie River to the Strait of Canso be removed from the Antigonish riding and joined with Guysborough under the new riding to be named East Nova. We are not in favor of this decision.
