Subject: Boundary Commission report - Shelburne

Good morning!

I would like to add my voice to those opposing the Electoral Boundary Commission's Final Report as it pertains to the division of Shelburne County. My main concerns are as follows:

- 1 - The original report, the only one completed without any political interference in my opinion, suggested no change for Shelburne County.
- 2 - Shelburne County maintains a population significant enough to have its own MLA
- 3 - The division of the county could result in never again having a member from Shelburne County in the NS Legislature
- 4 - The Eastern end of Shelburne County, the part supposedly to be annexed to Queens, has no cultural or economic ties with Queens. Its schools, hospitals, etc are connected with the remainder of Shelburne County.

Thank you for your time

Yours truly,

Pastor David L Townsend BA BTh
