**Subject:** Online Enquiry - General Government - boundary change in Shelburne County

Below is a submission from the Online Enquiry Form submitted on November 19, 2012 at 10:42:21 AM.

Voici une présentation du formulaire de demande en ligne a présenté le 19 novembre 2012 à 10:42:21.

-----  
This inquiry is about / Cette demande est au sujet de : Online Enquiry - General Government

Subject / Sujet : boundary change in Shelburne County

The comments or questions / Les commentaires ou questions : I think that the boundary commission recommendation of splitting the county in 2 sectors is very good and the government should adopt these recommendations. I do not see where it would give the county any less representation, but just the opposite, would give it more.

The people most opposed to it are local politicians, and their supporters. Contrary to what they want you to believe, most people in the County do not agree with them.

The reason why they are so opposed to this split is that they have little confidence in themselves and are afraid that if the county is split, then in the next provincial election, they would have less chance of winning because of better competition.
