Subject: I support changes to the animal protection act

Mr. Mark Furey,

I am writing to you to ask you to please SUPPORT Bill 27, the proposed changes that include allowing SPCA to do their job and also banning cosmetic surgery procedures for non-medical reasons such as debarking, declawing, tail docking and ear cropping.

I am sure that you will agree that animals are sentient beings and don't deserve to be mistreated and exposed to unnecessary pain and suffering. How are we going to evolve as a society if we continue to turn a blind eye to mistreatment of animals. We are better than that. We are good, kind and compassionate people who care about animals.

The rest of the Canada is already cheering for Nova Scotia in support of Bill 27. Please be the voice for animals and for compassionate Nova Scotians who care about animals.

Thank you,
Tamara Ciric Cox
Beaver Bank, NS
