**Subject:** Bill 27. Animal Protection.

Dear Mr. Furey,

Please allow me to add my support to Bill 27.

We needs must cease senseless cruelty to animals.

Cruelty inflicted by neglect, and by elective, ridiculous surgeries.

I encourage you to support this bill, along with the many folks who have contacted you and your colleagues.

Critters matter!!!

I also encourage you to reject any legislation regarding removing/destroying feral cat colonies. There are many societies working with these colonies, maintaining zero population growths. Outdoor cats are crucial for keeping rodent populations down.

The one-sided study reports that cats are the number 1 reason for bird population declines are inane!

Less than 4% of bird deaths are due to cats.

The greatest threats to avians are habitat loss, and light pollution!

Proven time and again.

Simple observation will confirm this.

Thankyou for your consideration. Please make the 'good choice'.

Regards,

Catherine Fulton.

Kent Ave, Hfx.
