**Subject:** Re bill 27

I live near Upper Stewiacke had have concerns re bill 27. I do not feel the SPCA should be given extra responsibilities. I own dogs and I would not like members of the SPCA on my property , in my house or in my dig pen with their contaminated foot wear. If they had been at a puppy mill with diseased animals or in a pasture with cow or horse stools that could carry diseases. I take very good care of my dogs. Do these people that work for the SPCA have enough knowledge to handle these new responsibilities. I have dealt with them once and was not impressed. Thank you. Elizabeth Jaworski
