Subject: Bill 27

Good morning Mr Furey,

I am writing you in hopes of Bill 27 going forward and becoming legislation.

I cannot understand why the people (breeders) who spoke , oppose these changes if they have nothing to hide? Why would they oppose unscheduled visits from SPCA officials? Why?

And from what I viewed (taping) these breeders gave absolutely zero reason that tail cropping, ear cropping, etc was beneficial to the animals. It all revolved around the benefit of the potential owners of these dogs (ie, for hunting). And of course, the almighty \$

It is the same as declawing cats. For the benefit of their human " owners". Nothing more.

These procedures are barbaric. Abuse. Cruel. No benefit to the animal.

I beg you to vote in favour of all changes brought forth in Bill 27.
All animals do as well. I speak for those who cannot

Regards
Cathy MacKenzie
