To Premier Rankin, Hugh McKay and Chuck Porter,

As an elder Nova Scotian I am extremely concerned for the viability of the environment of our province. This year, March 25th and spring is upon us, very little snow or rain has fallen.

The ground is already drying.

Decisions that are made now are critical to our future environment.

Trees hold water in the soil.

Water sustains life of all its forms; animal, and vegetable.

Cutting forests is detrimental to that process.

Burning the cut trees, destroying the natural habitat of the trees limits their ability to regenerate; then SELLING them to other countries should be criminal.

I do like the line "GROW A PAIR AND MEET WITH THAT YOUNG MAN".

Respect for nature and those that disagree with you should primary in a politician and any man/woman.

Sincerely,

Judy Parsons
