

I am writing to express my concern over Bill 127 that is being rushed through the Legislature! To me this is a flagrant example of how our democratic process is being short-circuited and public opinion circumvented!

There are issues which are in need of reform. But I object to Part 2. I disagree that this will "protect" Nova Scotians. Where is our right of peaceful protest? Those who wish to protect all our forests, but especially the old growth ones, must be able to express their concerns, without fear of being turned into criminals.

sincerely,
